

80 20 RULE ESSAY HELP

Turbo-charge your writing by using the 80/20 editing process, which is used in professional newsrooms.

The principle was originally observed by the Italian economist Vilfredo Pareto. And roughly a fifth of athletes competing in a sport will take home some four-fifths of all wins. No instructor would. In essay writing in particular, there is a HUGE asymmetry – structural and organizational factors are far more important in determining whether an essay is successful or not, than spelling and vocabulary and grammar. Eat the Biggest Frog First You often see people who appear to be busy all day long but seem to accomplish very little. So, the take-away is that not all the skill sets that are important for good writing are equally important. Your ability to choose between the important and the unimportant is the key determinant of your success in life and work. So they start from the smallest units of writing and scale up to the larger units. The goal is to communicate a main idea, a thesis, and to use the essay format to organize ideas in the most effective way to successfully communicate that main idea. So we, as instructors and editors and graders, focus on the most important feedback first, which is structural. What factors caused this? Let us say that you want to double your income. There are physical needs, like thirst, hunger, the need to go to the bathroom, or the need to have sex. Is there a way to increase the payment and publication of your poetry? Fixing problems with structure will fix the majority of the problems with your essay, and make the greatest contribution to improving the grade on your essay. If you choose to start your day working on low-value tasks, you will soon develop the habit of always starting and working on low-value tasks. Yet there are many ways you can use this powerful concept to improve the quantity--and quality--of your writing. The Most Valuable Tasks The most valuable tasks you can do each day are often the hardest and most complex. Identify Your Productivity Constraints Most people can typically identify a few things that stand between their time and their goals. And you commit yourself to doing something every day that enables you to become better and better at doing the most important things in your field. As you focus on doing what you love to do and becoming excellent in those few areas that can make a real difference in your life, you begin to think in terms of possibilities rather than impossibilities, and you move ever closer toward the realization of your full potential. Sometimes they are learned feelings of helplessness.
